Grace Medical Home Announces Three New Members to Board of Directors Orlando, FL:

[Grace Medical Home](#) announced today that Ashley Kelly, Nick McKinney, and Dr. Falecia Williams have joined the Board of Directors.

Ashley first started her journey at Grace Medical Home over ten years ago as a full-time volunteer nurse, then became the first Clinical Manager after Grace opened its doors. The patients, the quality of care they received, and the relationships formed during patient visits inspired her to go back to school to become a nurse practitioner. After completing her Master's degree as a Family Nurse Practitioner she returned to Grace to offer care as a provider. Her love of Grace's mission, patients, and care team runs deep and she is thrilled for the opportunity to further serve Grace as a member of the Board of Directors. Ashley is an Orlando native and lives in College Park with her wonderful husband Sean and two precious children Corinne and James.

Nick McKinney serves as the Chief Strategy Officer at Foundry Commercial and is responsible for assisting the executive team with developing, communicating, and implementing strategic initiatives. In addition, he works with Foundry's internal teams and assists them with business planning, initiatives, and client pursuits. He leads the marketing and communication teams that support all of Foundry's markets. Given his deep experience and passion for the faith-based and not-for-profit sector, he remains very involved with the continual growth and evolution of this service offering as it has grown to be the largest real estate service provider in this highly unique sector.

Dr. Falecia D. Williams currently serves as the West Campus President for Valencia College in Orlando, Florida, one of the nation's largest and most celebrated community colleges. Valencia is widely known for its academic excellence, deep faculty engagement, high rates of graduation, exceptional job placement rates, and outstanding partnerships within the community and business industry. As a result, the college was selected by the Aspen Institutes as the inaugural winner of the Aspen Prize for Community College Excellence in 2011. Dr. Williams has an extensive career in education. During her tenure at Valencia, she served as a professor, Program Director for Dual Enrollment, Director of College Transition Programs, Dean of Workforce Programs, Assistant Vice President for Workforce Development and Academic Affairs, and Interim Provost for West Campus. Her responsibilities included coordinating pre-collegiate partnerships with public secondary schools, managing academic credit accelerated mechanisms, and oversight for career and technical education, economic development, and workforce training. Prior to Valencia, Dr. Williams was a secondary teacher in gifted and honors education, coach, and grant administrator in the Lake County Public School system for eight years and taught one year in the Orange County Public School system. She led significant efforts to close the performance gaps for students, increase community outreach, strengthen parental support, and broaden professional development opportunities for teachers.

"See to it that no one misses the grace of God." - Hebrews 12:15
